Detailed Project Description and Justification:

The intersection of 15th Avenue and Sitka St. has a failed storm drain which often backs up, and in the winter freezes over. It is a public safety concern for the puddles in the summer, and the ice in the winter. It is not safe for residents to walk through the flooded area any time of year.

This project will replace the failed storm drain and will utilize a 50/50 local road bond match. Construction could begin in 2009.

Project Timeline:

Construction would begin in 2009.
